Dear resident

Estate survey

During 2006-2007, the Council arranged block treatment for rodents in all refuse rooms on the estate. Every refuse room was treated and follow up appointments were made for additional baiting where needed. Camden's Pest Control Team has continued this treatment where residents have reported sightings of mice.

Rodent infestation can be directly linked to household rubbish not being disposed of correctly. **Please dispose of your refuse correctly by using refuse rooms provided.** Action will be taken against those residents identified as causing a health hazard on the estate by not disposing of their refuse correctly. This will be considered as an act of anti-social behaviour and therefore a breach of your leasehold or tenancy conditions.

The Council would like to carry out a survey on the estate to see if the problem with rodents has been eradicated or whether further block treatment is required. Appointments will be arranged with the Council's Pest Control Team as required.

Your assistance in completing the following simple questionnaire would be very helpful in ensuring the necessary treatment is completed on the estate. Please use the pre paid envelope to send back your reply by Friday 14 December 2007. No postage stamp will be necessary.

..... tear off slip.....
Address:

Have you seen mice in your property	yes	no
Have you seen mice in your block (if 'yes' where ?)	yes	no
Have you seen rats in you block (if 'yes' where ?)	yes	no

Thank you for your co-operation in completing this form and taking part in the survey.

Yours sincerely,
Dawn Aldred
