Curnock Street Estate

Dear Residents

As you are aware we are currently doing extensive works in the main boiler house.

We write to inform you that due to technical difficulties there is currently no heating to all properties on the estate. We are working hard to remedy the situation and hope to restore heating services as soon as possible.

We are able to supply temporary heaters to vulnerable residents. If you would like a heater delivered to your property while these works are being carried out, please call: 07973 807 821

We apologise for any inconvenience caused to residents.

Kind Regards

Tony Bowcutt
Project Manager
