Dear resident

**Re: Site location for heating works**

I am writing to give you notice that the Apollo site accommodation for the heating works will be located near to 1-18 Billingley and 1-34 Goldthorpe. I have enclosed a copy of the site plan for your information.

The accommodation will be single storey and will not block your window line. The site accommodation will be secured at all times and will be enclosed by heras fencing.

Whilst it is not normal practice for residents to be consulted with regards to site location the Council always want to work with the TRA and residents on capital works. The Council has a duty of care on health and safety grounds to ensure that contractor staff working on behalf of the council can work in as safe a manner as possible. The Council has no other alternative but to use housing land for site areas to facilitate works.

I understand you may have concerns about parking and inconvenience of the capital works but assure you I will do all I can to minimise inconvenience to residents.

The leaseholder consultation for these works has now closed and the works are due to commence on site in May 2010 for 7 months.

I will write to you again informing you of the Meet the Contractor drop in sessions prior to the works commencing.

Yours sincerely

52
